DAY 4: THURSDAY 30TH JULY B.D. AYERS ROCK

Ayers Rock (Uluru) standing 348 metres high and with a circumference of 8.8km is an awesome spectacle rising from seemingly nowhere in the deep centre of Australia. It is one of the world's great natural wonders dominating this otherwise flat, dry terrain. Nothing prepares you for the impact of Uluru, as its sheer immensity dwarfs everything around it. Uluru has acquired its reputation not just because it is such a unique landform, but also because of the effect the sun has on its colours and appearance. Sunrises and Sunsets cause changes to its colour from browns through oranges, reds to finally grey. Our first stop is the visitors centre before we begin our drive around the base of the rock. After lunch, we travel west to visit Kata Tjuta which is a highlight of any visit to the Red Centre. Kata Tjuta is a cluster of rounded massive rocks, which are dramatic and vividly coloured. We can walk through the fascinating domes, gorges and valleys before returning to Sunset Strip to take the important photographs of the sunset at Uluru.

DAY 5: FRIDAY 31ST JULY B.D. AYERS ROCK TO KINGS CANYON

Uluru and Kata Tjuta are just the points showing of an immense bed of sedimentary rock now almost entirely covered by sand, and both have great spiritual significance to their Aboriginal owners. For those passengers wishing to experience climbing the rock it is an early rise, and there is time for optional flights (passengers own expense) over Uluru and Kata Tjuta should you wish. After lunch, we depart Uluru and travel north to take in the spectacular beauty of Kings Canyon, which is part of the Watarrka National Park situated at the western end of the George Gill Range. Kings Canyon is 323 km southwest of Alice Springs. There will be time to settle into our motel before dinner.

DAY 6: SATURDAY 1ST AUGUST **B.L.D.**
KINGS CANYON TO ALICE SPRINGS

This morning we are explorers, the flat face and sheer drop of the canyon walls are inspiring in their size and stark natural beauty. We walk the canyon floor, as it follows Kings Creek where ancient plant life thrives, and through the Lost City filled with eerie domed rocks. Kings Canyon really is an unforgettable destination. We leave Kings Canyon and travel to Alice Springs and our home for the next three nights. Framed by the magnificent MacDonnell Ranges and an intense desert landscape, the township of Alice Springs is Australia's most famous outback town. "The Alice" lies almost geographically as the centre of the Australian continent. Dinner tonight at the Gillen Club.
Accom: Desert Palms Resort Ph: 08 8952 5977

DAY 7: SUNDAY 2ND AUGUST **B.D.**
WESTERN MACDONNELL RANGES

Today we visit the West MacDonnell Ranges which run due west from Alice Springs. The mountain ranges contain many spectacular gaps and gorges and interesting geological features. We see Simpsons Gap that is a dramatic gap in the range, which is also home to the shy Rock Wallaby. Next stop is Standley Chasm with its vertical red walls that glow in the midday sun, gives the impression of some sort of giant fracture in the rock. At midday when the sunlight reaches the floor of the chasm turning the walls a blazing red, it is a memorable sight. We also visit John Flynn's Grave Historic Reserve and the Twin Ghost Gums. This afternoon we visit the Alice Springs Desert Park to learn about the flora and fauna found in Central Australia. We see the Birds of Prey Show which is a real highlight. Afterwards we return to Alice Springs in time to relax before dinner at the Alice Springs Casino.

DAY 8: MONDAY 3RD AUGUST **B.D.**
ALICE SPRINGS SIGHTSEEING

Alice Springs is a nice place to stay, and it has despite its flock of tourists been able to maintain its character. The town itself has many interesting sights and places for us to visit such as the old Telegraph Station Reserve, the Royal Flying Doctors Base which is the medical service that lends medical assistance to those that live at remote outback locations. We also visit "Rex The Snake Man", and learn about many of the reptiles found in Central Australia. We visit the School Of The Air where you are able to view the workings of this vital "education by radio" facility. There is free time for the remainder of the afternoon and tonight we enjoy dinner at the Double Tree by Hilton Hotel.

DAY 9: TUESDAY 4TH AUGUST **B.L.D.**
ALICE SPRINGS TO TENNANT CREEK

An early start today as we continue north along the Stuart Highway crossing the Tropic of Capricorn and a quick stop at the small Central Mount Stuart Historical Reserve. The cairn commemorates the discovery in 1860 of the centre of Australia by explorer John McDouall Stuart. We visit the Devils Marbles Conservation Reserve which is located on the Stuart Highway between Alice Springs and Darwin, and set against a striking background of the Australian desert. The Devils Marbles are a group of large rounded rocks, some of which are performing a very impressive balancing act. We continue on to Tennant Creek which is an outback town shaped by pastoralism, aboriginal culture, copper, gold and tin mining. The surrounding area is called the Barkly Tablelands, a region characterized by wide grassy plains.
Accom: Bluestone Motor Inn Ph: 08 8962 2617

DAY 10: WEDNESDAY 5TH AUGUST **B.L.D.**
TENNANT CREEK TO KATHERINE

After breakfast, we continue further north along the Stuart Highway through the highway junction at Three Ways. Continuing on we pass Renner Springs, Elliott and Daly Waters where we visit the famous old pub. The Daly Waters Pub has a reputation as a friendly outback country pub where people from all walks of life and any country in the world can get together and enjoy a laugh and a cold drink. Many patrons leave their mark in the pub for their friends and visitors in the form of flags, currency, ID cards and anything else they might be carrying on their journey. Take in the character of this pub during our lunch stop before making our way to Mataranka, a small settlement where you may take a swim in the warm thermal pool. Mataranka hot springs is a series of waterholes fed from underground thermal springs, and set amongst luxurious tropical vegetation. There will be time to take a swim in the warm water after a days travelling. Continue on to Katherine for our overnight stop.

DAY 11: THURSDAY 6TH AUGUST **B.L.D.**
KATHERINE TO KAKADU NATIONAL PARK

This morning we make our way our way to Katherine Gorge for an 8.00am river cruise. The deep gorge carved through sandstone by the Katherine River is the central attraction of this National Park. The spectacle of the river, sheer cliffs and rock art make this an excellent place to explore. Photos do not do this area justice. Continuing our travels through the gold town of Pine Creek, which is also the centre of an important uranium mining district. We then join the Kakadu Highway to Kakadu National Park. Covering nearly 20,000 square kilometres, Kakadu is one of very few places World Heritage listed for both its cultural and its natural values. Kakadu is one of the few places in Australia where the original Aboriginal inhabitants maintain personal and spiritual links with their traditional lands, and it contains a wealth of archaeological and rock art sites that provide insights into Aboriginal culture. Yellow Water Billabong is located at the end of Jim Jim Creek, a tributary of the South Alligator River. This afternoon the Yellow Water Cruise provides you with a unique opportunity to experience this diverse and sublimely beautiful area and its associated bird and wildlife. About one third of Australia's bird species are represented in Kakadu National Park, with at least 60 species found in the wetlands. We make our way back to Cooina for our overnight stop.

DARWIN**
